Art Club

We spoke to Jean Kopperud asking her to define the intent and main direction of the Candle Lake Art Club. Her response? This club is directed to people with all levels of artist talent. We are all students! We are all teachers! Everybody helps everybody! We do not have a regular instructor, however we occasionally offer special classes in a specific medium. If the instructor is a member the class is free – if the instructor is a visitor, s/he determines the fee.
